

WORKING ON IRONSIDES STOREHOUSE

During the past week so new applications were filed with Fire Marshal Howard L. Stanton for new buildings in the city. The rapid approach of winter weather is the contributory cause to the showing up of building operations in and about Norwich.

Notwithstanding the cold weather, work on various projects in Norwich are being rushed to a completion stage. Work has been started on the large one-story storehouse for the Ironsides Board Corporation at Thomsville. This building is being erected by the Peck, McWilliams company who have already put in the foundation work and are now starting on the brick work. The building is to be 100x200 feet and will be of three construction, having no posts, pillars or uprights from the floor to the roof. The roof will be held up by steel trusses from steel columns thus allowing the unobstructed use of every inch of floor space. The floor will be of cement and the window lights will be set in steel sash.

The office of the Peck, McWilliams company there have been extensive changes made within the past few weeks. The store formerly occupied by Herbert Willey has been converted into the main office and in the addition are now the private offices, draft-room and directors' room. All the plumbing and wood work is in place. The main office has also been changed, a small space now rifle door having been raised off previous custom-

ers from coming into the main office. The new storehouse that is to be erected in rear of the main building is also progressing although it may not be completed before the extreme weather sets in. A new heating system, the Arco hot water heater has been installed in the office building.

At the Atlantic Carton Corporation in Greenville work is being rushed to the completion stage. The brick work has been raised to the roof and the work of putting on the roof will start immediately. The cellar bottom of cement is already being laid. Peck, McWilliams has the contract.

One of the battery of five boilers to be installed at the U. S. Fishaling company has been set in place by Contractor Peck, McWilliams Co. and work of installing the second boiler is underway. The excavation work for the new building on Church street in the rear of the Austin Block is well along. The work has progressed so far that the work of putting in the foundation will be started in a short time.

At Tatfield the sixteen new tenement houses for the Peck, McWilliams company being completed with the exception of the interior work. This contract is one of the largest hand in the vicinity of Norwich this year and although at times hindered by labor difficulties and shortage of material has been done in a remarkably short time.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Dr. J. C. Ayling* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA? Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying, Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

The Housewives Burden

When a woman is almost distracted from overwork, her home is in disorder, crying children, and on top of all is suffering from backache, bearing down pains, or some other form of feminine ills, then she should remember that hundreds of women in just her condition have been restored to health and regained their youthful strength by taking Lydia E. Pinkham's Vegetable Compound and not rest until she has given it a fair trial.

Proof that it Restored the Health of These Two Women

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the ill effects which so often develop at such times. That was my first experience with the Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy, fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women 'take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."—Mrs. R. A. FAIRBURN, 606 Orchard Knob Ave., Chattanooga, Tenn.

Chattanooga, Tenn.—"Some time ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."—Mrs. J. R. MATTHEWS, 3341 Sycamore Street, Cairo, Ill.

Ailing, Overworked Housewives Should Rely Upon

DEFECTIVE RIVETING FIGURES

IN SHIPPING BOARD HEARING

New York, Nov. 15.—Alleged defective riveting on ships constructed for the Emergency Fleet Corporation was not only called to the attention of President Wilson, but "evidence" in the form of a package of the rivets was sent to him. The rivets, before the Walsh committee inquiring into shipping board affairs, testified today.

The witness was Thomas H. Purcell, who described himself as an expert riveter of the shipbuilding industry. In 1915 he was engaged as an inspector of rivets at the plant of the Submarine Boat Corporation. Some of the riveting work in this plant he described as "inferior." He said his superiors would not support him in his contention of poor work—therefore he sent President Wilson "some samples" in the form of defective rivets.

He could not say if the president ever saw the "evidence" but he did know he was "forced for sending it." They gave him only just about enough time to get my clothes and get out of the yard," he said.

Later on, he said, the president answered his complaints through his secretary, Mr. Tumulty. As a result he was reinstated as an inspector and given the job of inspecting rivets at the Submarine Boat Corporation yard, but was sent to the Standard Ship Building plant. "That was evident," the witness testified, "that my record had been in favor there."

He also testified that the riveting rivets were "something fierce." He complained to his superiors, he added, without effect. He then threatened to go to the United States Shipping Board headquarters at Philadelphia and was warned not to do it.

Mr. Purcell was questioned by his daughter, Mrs. Crane, who was present. She declared he was forced to interfere and effect a monetary settlement with the Standard Ship Building plant. The Standard Ship Building plant is the mother of a two-year-old son, Mr. Crane, who was present. Mr. Crane declared he was forced to interfere and effect a monetary settlement with the Standard Ship Building plant.

PROXY WEDDING LEADS TO CONJUGAL CONFLICT

Geneva, Ill., Nov. 15.—The proxy wedding of Edith Piaa, daughter of Emil Piaa, wealthy planter of San Jose, Costa Rica, and Herbert P. Crane, millionaire son of the late Richard T. Crane, back pay. He did not return to the Submarine Boat Corporation yard, but was sent to the Standard Ship Building plant. "That was evident," the witness testified, "that my record had been in favor there."

He also testified that the riveting rivets were "something fierce." He complained to his superiors, he added, without effect. He then threatened to go to the United States Shipping Board headquarters at Philadelphia and was warned not to do it.

Mr. Purcell was questioned by his daughter, Mrs. Crane, who was present. She declared he was forced to interfere and effect a monetary settlement with the Standard Ship Building plant. The Standard Ship Building plant is the mother of a two-year-old son, Mr. Crane, who was present. Mr. Crane declared he was forced to interfere and effect a monetary settlement with the Standard Ship Building plant.

REAL ESTATE SALES

Norwich had 13 sales of real estate during the past week to the same amount last year. The sales for the respective weeks were \$5,415 and \$20,350.

In New London there were five sales of real estate during the past week to the same amount last year. The sales for the respective weeks were \$23,370 and \$24,000, respectively.

NEW LONDON

Edw. W. Fargo is making arrangements for the erection of a residence for himself Fifth avenue, where he is building a temporary building at the present time. The house will be of wood, arranged for one family.

The new building on Broad street for Sydney Hewitt is enclosed. There will be a store on the ground floor and a tenement above.

Building Permits

Carl Olsen, frame garage, Cost \$100. Edward M. Burch, garage, William street, Cost \$200. Fanny M. Wetmore, alterations to residence, Sander street, Cost \$2,000. Henry B. Lee, frame garage, Blackhall street, Cost \$200. Clara C. Hannon, frame garage, Huntington street, Cost \$300.

Number of permits for the week, six; estimated cost of buildings, \$4,540.

3 YEAR OLD GIRL SHOT ACCIDENTALLY BY BROTHER

Pittsfield, Mass., Nov. 15.—Winifred Flanagan, three year old daughter of Mr. and Mrs. Joseph M. Flanagan, of this city, was shot and almost instantly killed this afternoon when her brother John, aged 8, accidentally discharged a shotgun. The charge went through the child's body and lodged in the wall of the room. "Waddy" going to pull the trigger—just went off," was the boy's explanation.

One way to keep on friendly terms with your neighbor is to keep off his premises.

Hair Roots Come Out Before Your Very Eyes

(New Method Banishes Superfluous Hair)

The new way to remove superfluous hair, roots and all—the delicate way—is rapidly superseding the old-fashioned electrolytic method, as well as electric razors and tweezers. And no wonder. Here is a product so harmless a child could safely use it—so non-irritating and so effective it is altogether pleasant to use. It proceeds in a quiet, unobtrusive way, actually removes the hairs entire, including the roots, in just a few seconds. You will surely have the surprise of your life if you will obtain a stick of electrolytic from your druggist and follow the simple instructions.

HE NOW BELIEVES IN "FRUIT-A-TIVES"

Teacher Of "New Thought" Healed By Fruit Liver Tablets

SCHENECTADY, N.Y.

"I am not in the habit of praising any material medicine as I am an advocate of 'New Thought'; but some time ago, I had such a bad attack of Liver and Stomach Trouble that I gave up thinking I did not have it and took 'Fruit-a-tives' or Fruit Liver Tablets.

Most gratifying was the result. It relieved my liver and stomach trouble, cleaned up my yellowish complexion and put new blood in my body. 'Fruit-a-tives' is the highest result of 'New Thought' in medicine."

Union Square

NORWICH TOWN

Superintendent of schools and Mr. Edward J. Graham and family are moving this week from 271 Washington street to the home of Mr. and Mrs. William S. Geer at 572 Washington street, which they will occupy for the winter, while Mr. and Mrs. Geer are in Florida.

Sunday morning at the First Congregational church, the pastor Rev. Gordon F. Bailey preached an eloquent sermon on The Man Who Owned a Minister. The text—Judges 17:12. And Micah consecrated the Levites; and the young man became his priest, and was in the house of Micah. At the Christian Re- deemer service in the evening the topic was: Winning Our Friends for Christ, John 1:10-11. The prayer meeting topic at this church for Thursday evening will be: Christian Internationalism: A Task for the churches.

The hold-over meeting of Dorcas Home Missionary society is to take place Thursday afternoon at the First Methodist Episcopal parsonage on West Town street. This meeting scheduled for the second Thursday of the month, was postponed owing to the annual meeting of the New England Southern conference, W. H. M. S. in Norwich last week.

At the home of Mr. and Mrs. Calvin Edmonson of West Town street, Armistice Day was observed when at ten o'clock a delicious supper of roast pig, mashed potatoes and turkey, cranberry sauce and fruit, was served to friends and neighbors. Mrs. Edmonson who prepared the supper was assisted by Mrs. Henry Gore. Others present were Mrs. Emma West of New Haven; Mr. and Mrs. Jerome Parkinson, Mr. and Mrs. Henry Wagner. Mrs. John Pouch, Miss Anna Fisher all of Norwich town; and Edward Johnson from the city. The social time which followed the supper was devoted to whist and music. Mrs. Pouch entertained with selections on the accordion. Mr. and Mrs. Wagner and Miss Inez Edmonson, pianists accompanied for the singing and gave several piano solos. In the whist contest Mrs. Pouch was first prize winner. The consolation prize went to Mr. Warner. The pie raised, which was a year old and weighed fifty pounds, was raised by Mr. Wagner.

At the Soldiers' Arms service Sunday afternoon, Rev. Ernest A. Lutz, pastor of Trinity Methodist Episcopal church, Norwich, gave a most interesting address on The Underneath of Experience. Mrs. Pearl E. Roberts, chorister of this church was in charge of the musical part of the hour, which included an anthem by Mrs. Roberts and several hymns among them. Safe in the Arms of Jesus, Miss Olive Linton accompanied at the piano.

Nothing so upsets the even tenor of a woman's ways as the insinuation that her hat isn't on straight.

HOW WOOD ALCOHOL CAME INTO NEW ENGLAND

New York, Nov. 15.—Plans for the theft and distribution of wood alcohol, "white" which caused the deaths of two men in New England last week, were disclosed today by the trial of John Romanish, undertaker, who was indicted with four other persons in the theft of the alcohol.

Cosimo D'Ambrasio, Italian friend of Romanish, was called to the stand by the prosecution. Questioned by Assistant District Attorney Warburton, he said he had a "tip" on the large shipment of alcohol that had been consigned to the city, and that he and later arranged with the teamsters who had charge of the hauling to divert it to his stage. William Woller, the teamster, corroborated this testimony.

From D'Ambrasio's garage the alcohol was removed to Romanish's, the former testified. There the steel drums containing the alcohol, he said, were tapped and the liquor drawn off into wooden barrels. The drums were filled with water and sent to the pier. Then the alcohol was colored, bottled and made ready for distribution.

MACDONALD TREASURER OF ROAD BUILDERS ASSN.

New York, Nov. 15.—M. A. Macdonald of Chicago was elected president and James Macdonald of New Haven, Conn., treasurer of the American Road Builders' Association at its annual business meeting here tonight.
